Dear Wayne:

I wanted to drop you a note on behalf of the Board of Selectmen and all the residents of Danvers for the generous donation of services which you recently made to the Town and its Danversport residents after the devastating explosion on November 22, 2006. Your gift, as is required by Massachusetts General Law, was accepted by the Board at a recent meeting.

It is obvious to us that you know what an important resource you were to those folks who are, even as I write, are working hard to bring their neighborhood back to some semblance of normalcy. You have been an invaluable asset to that process.

Please accept my own thanks and those of my fellow Board members for your care and concern.

Sincerely,

Stanley E. Svensson, Chairman
