

ABOUT

Hancock Associates is made up of talented land surveyors, civil engineers and wetland scientists dedicated to excellence in land/coastal development, transportation, infrastructure, construction and preservation. We maintain our position as an industry leader through our investment in exceptional staff, state-of-the-art equipment/technology and the acquisition of multiple land surveying and civil engineering firms and historical land surveying and civil engineering records dating back to 1852.

HISTORICAL SURVEY RECORDS

Civil Engineering

The civil engineers at Hancock Associates are dedicated to each project from inception to completion, no matter how large or small. We have a unique body of expertise and are well-respected by regulatory boards and commissions for our thorough and straightforward style and by clients for our guidance and innovative solutions.

CAPABILITIES

- ADA Site Analysis, Design and Compliance
- Commercial/Mixed-Use Site Design
- Constant Head Infiltration Testing
- Construction Administration
- Construction Document Preparation
- Construction Observation
- Due Diligence Site Investigations
- Erosion Control Design
- Expert Testimony
- Flood Studies and FEMA Map Revisions
- Hydrant Flow Testing
- Infrastructure Design
- Innovative/Alternative Sewage Pretreatment Design
- Land Development Site Design
- Land Planning
- Landscape Planning
- Municipal Support Services
- Rail Trail and Riverwalk Design
- Regulatory Permitting
- Residential Subdivision Design and Permitting
- Roadway Design
- Sanitary Sewer Design
- Septic System Testing and Design
- Sewerage Lift Station Design
- Soil Evaluation
- Stormwater Analysis, Design and Post-Construction Monitoring
- Stormwater Pollution Prevention Plan (SWPP)
- Urban High Density Multi-family Project Design
- Value Engineering
- Water and Supply Design
